

## ABOUT RYMSA GROUP

RYMSA designs, manufactures and distributes a wide range of sophisticated antennas and components for the telecommunications industry. In operation for over 30 years, the firm has established its renown in radiation technology as applied to the fields of broadcasting, wireless, space and defense systems. With production and design facilities in Spain, the United States and Mexico, RYMSA provides innovative technical solutions tailored to meet the needs of its clients around the world.

30 years of antenna technology know-how applied to:  
Innovation ▪ Performance ▪ Quality

## **RYMSA TELECOM DIVISION'S MISSION**

The Telecom division's mission is to further the global reach of wireless telecommunications through continued development of high quality yet cost-effective antenna solutions to the mobile telecom industry. The company strives to meet and exceed the needs of its clientele around the world. To grow revenues and profitability RYMSA will look beyond existing markets and put particular emphasis on markets in the developing world.

## **COMPLEX ENGINEERING, SIMPLE SOLUTIONS**

RYMSA Telecom has applied over 30 years of expertise and leadership to engineer elegantly simple solutions for complex wireless antenna problems. The company's focus has always been to develop high performance base station antennas that are rugged and reliable.

Leading-edge engineering innovations include:

- Protecta™ single-piece radome, designed to provide structural integrity while offering longlasting protection from the elements
- TruePol™ antenna cavity and dipole system designed to yield excellent cross-polar discrimination, gain, front-to-back ratio, and pattern symmetry for superior broadband performance
- AccuPattern™ phase shifter, allowing a wide range of beam tilt adjustments while maintaining sidelobe suppression

Today, the Telecom division develops antennas for all the major standards and bandwidths of wireless telephony: AMPS, Cellular 850, GSM 900, DCS 1800, PCS 1900, UMTS, AWS, etc., and its overriding technical performance objectives are:

- To perfect the integrity and uniformity of coverage patterns
- To maximize consistent signal strength in all areas of the cell to enable operators to make full use of capacity without degrading voice quality
- To optimize antenna form-factors in order to minimize tower loads and visual impact, while reducing installation and operating expenses.

The company's extensive portfolio includes:

- Panel antennas: Single-band and Multi-band antennas (Dual-Band, Tri-Band, Quad-Band)
- Indoor antennas and repeaters
- Roof-top and monopole antennas: Tri-sector multi-radome, Tri-sector mono-radome
- Remote Electrical Tilt system: the "RET" and the site control unit (SCU)

## **EXCEPTIONAL QUALITY AND RELIABILITY**

RYMSA's top priority is to provide trouble-free products that minimize or even eliminate the need for operator intervention once they have been installed. The company consistently delivers this by continuously monitoring the manufacturing process. Finished products are subjected to a variety of punishing tests using the most modern tools: anechoic chamber, radiant patterns, environmental trials (temperature and humidity, corrosion, vibration, rain, wind resistance). RYMSA's Total Quality System is endorsed by the DIN EN ISO 9001 Certification Organization and 100 percent of RYMSA antennas are tested for passive intermodulation (PIM), ensuring that every antenna works dependably at peak performance.

## **OUTSTANDING CUSTOMER SERVICE**

RYMSA Telecom is thoroughly committed to total customer satisfaction. Our exceptionally responsive customer service representatives make it easy to track orders and coordinate deliveries to ensure on-time installation. Skilled technical experts are available to answer installation questions and support installation crews.

# RET SYSTEM

## **Remote Antenna Control Unit (RACU)**

For Electrical Downtilt Antennas

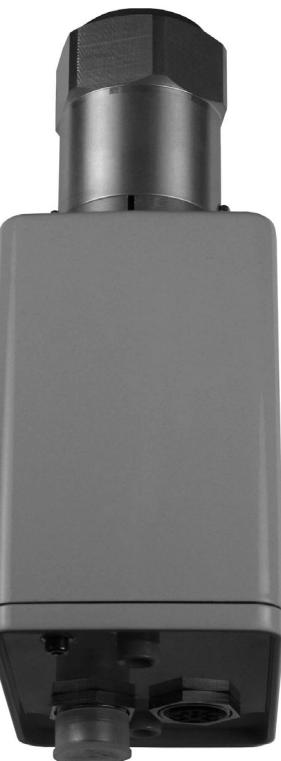

### **ELECTRICAL SPECIFICATIONS**

Unit Model	RACU-001	RACU-020
Interface	RS485	AISG 1.1 Protocol
		AISG 2.0 Protocol
Adjustment Time (Full Range)	60 sec	
Power Supply	+10 to +30 V	
	5W to 10W (in motion)	
	< 1W (idle)	

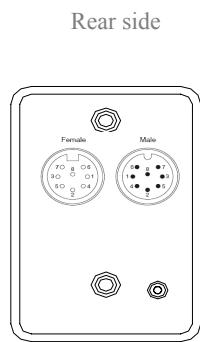

### **MECHANICAL SPECIFICATIONS**

Dimensions (mm)	170 x 100 x 65
Weight (kg)	1.1
Connectors	2 x 8 pin connector according to IEC 60130-9; according to AISG.
	Daisy chain in: male
	Daisy chain out: female
Housing Material	ABS chromate. Nut in aluminium
Grounding	All metallic parts are DC grounded
Temperature Range	-40° to +60°C
Humidity	100%

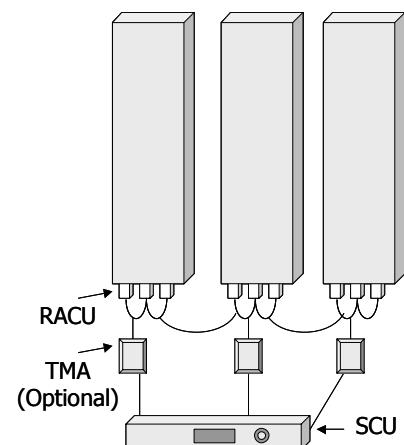

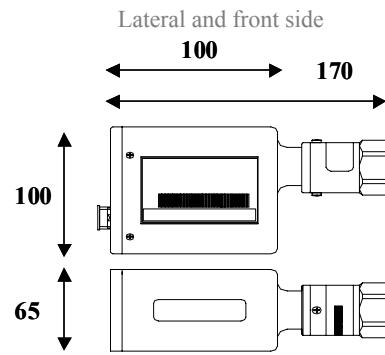

Packing components : Remote Control Unit (RACU) , termination load

Example of configuration with  
Tri-Band antenna

Rear side

**RET SYSTEM**  
**Site Control Unit (SCU)**  
 For Remote Antenna Control Unit (RACU)  
 And Tower Mounted Amplifier (TMA)

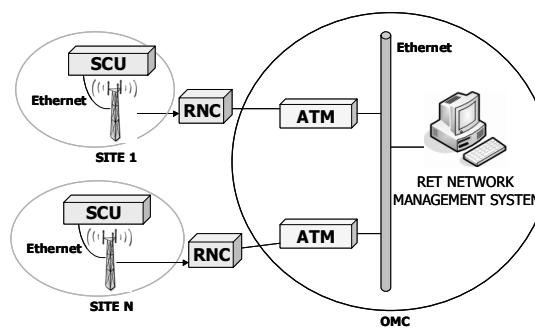

**ELECTRICAL SPECIFICATIONS**

Site Control Unit Model	SCU-001	SCU-020
Interface	RS485	
	AISG 1.1 Protocol	AISG 2.0 Protocol
Input Voltage	DC: -48V AC: 100-240 v, 50 to 60 Hz	
Output Voltage	3 x 24 VDC	
	3 x 12 VDC	
Total Output Power	50 W	
Connector to RACU	3 X 8 pin connectors according to IEC 60130-9; according to AISG. Daisy chain in & out: female.	
Interface to BTS/PC/modem	Ethernet/RS-232	
Protocols to BTS/PC/modem	TCP/IP, HTTP/HTML, UDP, DHCP, FTP, SNMP, ICMP/PING	
Maximum number of ALD	32 logical unit (consumption total < 50W)	
Alarm interface to BTS	Alarms visible at the SCU via LED/ LCD	
	8 configurable opto-isolated alarm signal outputs and common reference return	

**MECHANICAL SPECIFICATIONS**

Mounting device	Kits for 19 inch rack or wall mounting kit available
Dimensions (mm)	430 x 170 x 43
Weight (kg)	2.4 kg
Temperature Range	-25° to +55°C

# RET SYSTEM POWER SUPPLY AND CONTROL CABLE

## ELECTRICAL SPECIFICATIONS

Type No.	<b>MC XXX</b>
Connectors	2 x 8 pin circular connector according to 60130-9, Ed. 3.0 (in accordance with AISG 1.1), female/male
Construction	Screen 1 x twisted pair 100 Ω/1 MHz 24 AWG 2 x power supply, 1 x DC return 18 AWG
Temperature Range	-40 °C to +80°C (fixed position)
Protection Class	IP 67 (connected)
Cable diameter	8 mm
Flammability	VL 1581 VW-1 CSA FT1
Minimum bending radius	Single bending 7,5 x D Multiple bending 15 x D

Type No	Description	Length
MC001	Control Cable	1 m
MC002	Control Cable	2 m
MC003	Control Cable	3 m
MC005	Control Cable	5 m
MC010	Control Cable	10 m
MC020	Control Cable	20 m
MC025	Control Cable	25 m
MC040	Control Cable	40 m
MC050	Control Cable	50 m
MC060	Control Cable	60 m
MC080	Control Cable	80 m
MC100	Control Cable	100 m

### Pin assignment according to AISG

- 1** +13V DC (+12 V DC nominal)
- 2** Optional, not used
- 3** RS 485 B
- 4** RS 485 GND Optional, not used
- 5** RS 485 A
- 6** +29 VDC (+24 V DC nominal)
- 7** DC Return
- 8** Optional not used

*For indoor and outdoor  
Control Cable assembled with suitable connectors for Remote Electrical Tilt (RET) components*
